COMPUTER SKILLS END TERM COMPREHENSIVE ASSESSMENT Module: Apply Computer Skills (CCMCS402) RQF Level: 4 **(NIT AND ETE)** Academic Year: 2025–2026 Duration: 3 Hours Total Marks: 100 Trainer: MPAYIMANA CYIZA Landry Trainee: _____	**INSTRUCTIONS TO STUDENTS** • This paper contains Section A and Section B. • Section A is compulsory (70 Marks). • Attempt ANY TWO (2) questions in Section B (30 Marks). • Write/choose clearly; unclear answers score zero.

SECTION A (70 Marks) – ALL QUESTIONS COMPULSORY

Q1. Which term refers to a system software that manages hardware and software?

A) Application software
B) Kernel
C) Operating System
D) File Manager
Hint: It is the *main controller* of the whole computer.

Q2. Which of the following is NOT a function of an operating system?

A) Memory management
B) File management
C) Weather prediction
D) Device management
Hint: Think about what computers manage internally vs. external tasks.

Q3. The component of the OS that connects hardware and software is called the _____.

A) User Interface
B) Kernel
C) Folder System
D) Desktop
Hint: It is the "heart" of the OS.

Q4. Dual-mode operation (User mode + Kernel mode) protects the system.

A) True
B) False
C) Sometimes
D) Only on mobile phones
Hint: Two modes separate normal user tasks from sensitive tasks.

Q5. Which of the following is a GUI element?

A) mkdir
B) Icons
C) sudo
D) Terminal
Hint: GUI = things you click with a mouse.

Q6. A file system is responsible for _____.

A) Printing documents
B) Organizing and storing data on storage devices
C) Increasing CPU speed
D) Playing audio files
Hint: It deals with how files are saved and retrieved.

Q7. A collection of data stored as one unit is called a _____.

A) Window
B) Folder
C) File
D) Memory
Hint: Documents, videos, and photos are all this.

Q8. Which command creates a new folder in CLI?

A) copy
B) del
C) mkdir
D) mv
Hint: It stands for "make directory."

Q9. FAT32 is mainly used on _____.

A) Flash drives
B) Processors
C) RAM chips
D) Monitors
Hint: Think USB devices.

Q10. Which component handles memory, devices, and processes?

A) Kernel
B) GUI
C) Recycle Bin
D) File Explorer
Hint: It is the core manager of system resources.

Q11. In Ubuntu, almost everything is considered a file.

A) True
B) False
C) Only text files
D) Only folders
Hint: Devices, drivers, and hardware also appear as files.

Q12. Which of the following is a type of operating system?

A) Mobile OS
B) Scanner
C) Router antenna
D) USB cable
Hint: Android and iOS belong here.

Q13. The time slice in a time-sharing OS is called _____.

A) Batch
B) Quantum
C) Signal
D) Kernel Cycle
Hint: It is a small period the CPU gives to each task.

Q14. A feature of Real-Time Operating Systems (RTOS) is _____.

A) Allowing long delays
B) Strict timing and quick response
C) Running only on phones
D) High-level graphics
Hint: Used in air-traffic control, robots, and medical systems.

SECTION B (30 Marks) – Attempt ANY TWO Questions

Q15. a) Define an OS. (5 marks)
b) Describe 5 functions of an OS. (5 marks)
c) Explain importance of dual-mode. (5 marks)

Q16. a) Explain GUI & CLI with examples. (5 marks)
b) Differences between Monolithic kernel & Microkernel.
c) Why kernel is the core of OS. (5 marks)

Q17. a) Explain selecting adjacent & non-adjacent files.
b) Explain copying & moving files. (5 marks)
c) Explain 3 file systems (NTFS, exFAT, FAT32).

Q18. a) Describe 5 OS types. (5 marks)
b) Give 2 advantages & 2 disadvantages of one type.
c) Explain role of file system. (5 marks)

19. Use CLI and create the following Project directory structure:/15Marks

```
IoT_IWebApp
├── public
│   └── index.php
├── app
│   ├── controllers
│   └── views
├── config
├── assets
└── logs
```

Success!
